Helping Teens Become Safe And Responsible Drivers

TEXT OR DRIVE - DON'T DO BOTH, MAKE THE RESPONSIBLE DECISION!

Texting and Driving has become as much of a problem as drinking and driving. Teens are **23 times** more likely to be involved in a crash compared to those drivers who aren't texting and driving. By signing this pledge, you are making a commitment and a responsible decision when you are behind the wheel. Vehicle crashes are the **#1 killer of teens**; don't let texting and driving increase those chances.

I, _____, hereby pledge not to **Text and Drive** while driving or operating any automobile.
